How EZYFIX works.

Tools you need to install this EZYFIX tap set.

Adjustable spanner

Pliers

Tools you may need to remove your old taps

Pointed nose pliers

Great for pulling out old worn tap washers which tend to swell over the years making them tricky to remove by hand.

Rubber strap wrench

Ideal for undoing dress fittings on old taps or any component that doesn't have flat surfaces to lock a spanner onto.

Basin wrench

Sometimes the basin spout locknut at the back of your cabinet is tricky to access. This tool helps overcome the issue OR alternatively look out for our EZYtip in this guide.

Stage 1. Remove old taps and spout

1. Turn off the water at your meter and drain your system by opening the lowest hot and cold outlet in your house. Usually the bath taps.

2. Remove the old buttons, handles, flanges, spindles and jumper valves. The rubber strap wrench is ideal for undoing tight dress flanges.

Cut out the existing o-ring on the breech piece and replace with the one supplied with your new taps before putting the new spout on.

3. Undo the old spout locknut underneath your basin then twist and pull out the spout.

EZYtip: If you are struggling to loosen this nut simply lock a spanner onto it with one hand whilst twisting the spout from above with the other.

Stage 2. install your new EZYFIX taps

1. Select the correct adaptor to match the length of your existing spindle.
EZYtip: Wind the spindle up first before screwing in with a spanner to avoid damage to your new washer.

2. Screw on the tap flange, handle and buttons. Tighten the button with the supplied nylon spanner.

Stage 3. install your new EZYFIX spout

1. Select the correct sized adaptor, slide flange onto the spout then apply thread tape to the short end of the adaptor and screw into spout.

2. Push on the new spout and re-tighten locknut beneath basin.
EZYtip: Lubricate the orings on the existing breech piece nipple with tap lubricant or even olive oil! to make assembly easy.

Job done!

NO EXCUSES
5 YEAR
WARRANTY

NO EXCUSES - 5 YEAR WARRANTY - WHAT DOES IT MEAN?

It means that anyone can install EZYFIX tapware as per our instructions and still be covered by our full 5 year warranty. Most other tapware manufacturers void your warranty if their products are not installed by a licensed plumber.

IMPORTANT NOTE: Please check your relevant state laws before undertaking DIY plumbing repairs. Any claim under this warranty must be made within 5 years of the date of purchase of the product. To make a claim under the warranty, contact EZYFIX tapware direct.

EZYFIX tapware will pay your reasonable, direct expenses of claiming under this warranty. You may submit details and proof of your expense claim to EZYFIX tapware for consideration.

This warranty is given by EZYFIX Tapware ABN 10806209, PO Box 158 Bayswater, W.A. 6053, (08) 9272 6511, sales@ezyfix.com.au .

This warranty is provided in addition to the other rights and remedies you have under law: our goods come with guarantees which cannot be excluded under the Australian Consumer Law. You are entitled to replacement or refund for a major failure and to compensation for other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
