1

Prepare your waste

2. Apply silicone to the underside of the waste insert repair kit flange.

EZYtip: The empty EZYFIX packaging is a great way to handle the old fittings as you remove them so as to avoid damage to your bath or your bathroom surface.

2

Install your new waste insert

1. Insert the flange and grate pressing down firmly on the flange.
2. Wipe away excess silicone.

3

Job done!

Allow 24 hours for the silicone to dry, and your new sparkling waste is ready to use.
